

## CONTENTS OF No. 301, MARCH 1973

	<i>page</i>
ARTHUR WILLIAM GERALD KINGSBURY (1906–1968)	1
M. H. HEY: Mineral analysis and analysts	4
G. P. BERNARDINI, F. CORSINI, and G. TANELLI: Djurleite from Calabona, Sardinia	25
J. R. DE LAETER, G. J. H. MCCALL, and S. J. B. REED: The Redfields meteorite—a unique iron from Western Australia	30
F. C. HAWTHORNE and H. D. GRUNDY: The crystal chemistry of the amphiboles. I: Refinement of the crystal structure of ferrotschermakite	36
R. C. ROUSE: Hematophanite, a derivative of the perovskite structure	49
G. SABATIER: A new occurrence and a structural interpretation of the sanidine Nevada twin	54
F. C. W. DODGE: Chlorites from granitic rocks of the central Sierra Nevada batholith, California	58
SIDNEY A. WILLIAMS: Heyite, $Pb_5Fe_2(VO_4)_2O_4$ , a new mineral from Nevada	65
R. F. SYMES and S. A. WILLIAMS: Heyite and brackebuschite compared	69
A. RAMASWAMY and M. S. MURTY: Ortho- and clino-pyroxenes from the charnockite series of Amaravathi, Andhra Pradesh, South India	74
R. E. NEWNHAM and HYO SUB YOON: Elastic anisotropy in minerals	78
P. K. HARVEY and C. C. FERGUSON: Spherically arranged inclusions in post-tectonic garnet porphyroblasts	85
H. ELDERFIELD and J. D. HEM: The development of crystalline structure in aluminium hydroxide polymorphs on aging	89
R. MACDONALD and M. J. SAUNDERS: Chemical variation in minerals of the astrophyllite group	97
W. C. E. HARMER: The effect of fluorine content on the determination of silica in quartzose rocks	112
ERNEST H. NICKEL: An occurrence of gaspéite and pecoraite in the Nullagine region of Western Australia	113
P. K. WEBB: An association of primary analcime and calcite in phonolite	116
IAN PARSONS: Classification of K-feldspar polymorphs by X-ray means	117
J. G. MACDONALD: Carbon-dioxide metasomatism in the Campsie Lavas	119
NORMAN FRY: Lawsonite pseudomorphosed in Tauern greenschist	121
Book reviews	123
