

CONTENTS OF No. 354, DECEMBER 1985

	<i>page</i>
B. G. J. UPTON, D. STEPHENSON, and A. R. MARTIN: The Tugtutôq older giant dyke complex: mineralogy and geochemistry of an alkali gabbro-augite-syenite-foyaite association in the Gardar Province of South Greenland	623
P. J. O'CONNOR and C. B. LONG: Radioelement abundance data for some Dalradian rocks from Co. Donegal, Ireland	643
N. S. ANGUS and R. MIDDLETON: Compositional variation in h�gbomites from north Connemara, Ireland	649
D. E. KITCHEN: The partial melting of basalt and its enclosed mineral-filled cavities at Scawt Hill, Co. Antrim	655
P. A. SABINE, M. T. STYLES, and B. R. YOUNG: The nature and paragenesis of natural bredigite and associated minerals from Carneal and Scawt Hill, Co. Antrim	663
R. A. D. PATTRICK: Pb-Zn and minor U mineralization at Tyndrum, Scotland	671
C. H. DONALDSON: The rates of dissolution of olivine, plagioclase, and quartz in a basalt melt	683
L. A. MAILLET and D. B. CLARKE: Cordierite in the peraluminous granites of the Meguma Zone, Nova Scotia, Canada	695
S. MATSUBARA and Y. MOTOYOSHI: Potassium pargasite from Einst�dungen, L�tzow-Holm Bay, East Antarctica	703
A. J. COHEN and L. N. MAKAR: Dynamic biaxial absorption spectra of Ti^{3+} and Fe^{2+} in a natural rose quartz crystal	709
Z. MAKSIMOVI� and G. PANT�: Hydroxyl-bastnaesite-(Nd), a new mineral from Montenegro, Yugoslavia	717
P. J. DUNN: The lead silicates from Franklin, New Jersey: occurrence and composition	721
E. E. FOORD, R. R. COBBAN, and I. K. BROWNFIELD: Uranoan thorite in lithophysal rhyolite—Topaz Mountain, Utah, USA	729
K. SOMAN and N. G. K. NAIR: Genesis of chrysoberyl in the pegmatites of southern Kerala, India	733
H. M. AL-HERMEZI: Qandilite, a new spinel end-member, Mg_2TiO_4 , from the Qala-Dizeh region, NE Iraq	739
D. WIMMERS: Silver minerals of Panasqueira, Portugal: a new occurrence of Te-bearing canfieldite	745
F. L. SUTHERLAND, J. D. HOLLIS, and L. R. RAYNOR: Diamonds from nepheline mugearite? A discussion of 'Garnet websterites and associated ultramafic inclusions from a nepheline mugearite in the Walcha area, New South Wales, Australia'	748
J. OSTWALD: Some observations on the chemical composition of chalcophanite	752
R. S. W. BRAITHWAITE: Roebblingite: a revised formula from infra-red and thermal analysis data	756
D. J. DRYSDALE: Petalite and spodumene in the Meldon aplite, Devon	758
A. LIVINGSTONE and J. D. RUSSELL: X-ray powder data for susannite and its distinction from leadhillite	759
B. YOUNG: Strontianite from the northern Pennine orefield	762
Book Reviews	763
Alphabetical Index	765

Mineralogical Magazine is published by the Mineralogical Society of Great Britain and Ireland in co-operation with the mineralogical societies of the following European countries: Austria, Belgium, Denmark, Finland, France, Italy, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and West Germany.

A common annual index to:

Bulletin de Min ralogie
Fortschritte der Mineralogie
Mineralogical Magazine
Rendiconti della Societ  Italiana di Mineralogia e Petrologia
Schweizerische Mineralogische und Petrographische Mitteilungen

is produced by 'La Soci t  Fran aise de Min ralogie et de Cristallographie' at the end of the annual volume of each journal and printed in a separate issue.
