D. A. POLYA and G. T. R. DROOP: Mineral Textures	301
P. B. BARTON JR.: Ore textures: problems and opportunities	303
W. D. CARLSON: Competitive diffusion-controlled growth of porphyroblasts	317
G. E. LLOYD, N.-H. SCHMIDT, D. MAINPRICE and D. J. PRIOR: Crystallographic textures	331
S. C. ELPHICK, C. M. GRAHAM, F. D. L. WALKER and M. B. HOLNESS: The application of SIMS ion imaging techniques in the experimental study of fluid-mineral interactions	347
B. W. D. YARDLEY, C. A. ROCHELLE, A. C. BARNICOAT and G. E. LLOYD: Oscillatory zoning in metamorphic minerals: an indicator of infiltration metasomatism	357
R. H. WORDEN, G. T. R. DROOP and P. E. CHAMPNESS: The reaction antigorite → olivine + talc + H ₂ O in the Bergell aureole, N. Italy	367
A. H. N. RICE and J. I. MITCHELL: Porphyroblast textural sector zoning and matrix displacement	379
H. L. M. VAN ROERMUND and J. M. LARDEAUX: Modification of antiphase domain sizes in omphacite by dislocation glide and creep mechanisms and its petrological consequences	397
A. P. MORE, D. J. VAUGHAN and J. R. ASHWORTH: Banded sphalerite from the North Pennine Orefield	409
O. GASPAR and A. PINTO: The ore textures of the Neves-Corvo volcanogenic massive sulphides and their implications for beneficiation	417
M. K. NIMFOPOULOS and R. A. D. PATTRICK: Mineralogical and textural evolution of the economic manganese mineralisation in western Rhodope massif, N. Greece	423
K. A. FOXFORD, R. NICHOLSON and D. A. POLYA: Textural evolution of W-Cu-Sn-bearing hydrothermal veins at Minas da Panasqueira, Portugal	435
C. B. FARMER, A. SEARL and C. HALLS: Cathodoluminescence and growth of cassiterite in the composite lodes at South Crofty Mine, Cornwall, England	447
A. A. FINCH: Conversion of nepheline to sodalite during subsolidus processes in alkaline rocks	459
A. R. BUTCHER and R. K. W. MERKLE: Unusual textures and structures associated with a magnetitite layer in the Bushveld Complex: a contribution to the adcumulus debate	465
H. V. EALES, W. D. MAIER and B. TEIGLER: Corroded plagioclase feldspar inclusions in orthopyroxene and olivine of the Lower and Critical Zones, Western Bushveld Complex	479
