

CONTENTS OF No. 392, SEPTEMBER 1994

page

Petrology

- B. R. BELL and I. T. WILLIAMSON: Picritic basalts from the Palaeocene lava field of west-central Skye, Scotland: evidence for parental magma compositions 347
- S. A. GIBSON, R. N. THOMPSON, O. H. LEONARDOS, S. E. TURNER, J. G. MITCHELL and A. P. DICKIN: The Serra do Bueno potassic diatreme: a possible hypabyssal equivalent of the ultra-mafic alkaline volcanics in the Cretaceous Alto Paranaíba Igneous Province, SE Brazil 357
- A. MOGESSIE and D. RAMMLMAIR: Occurrence of zoned uvarovite-grossular garnet in a rodingite from the Vumba Schist Belt, Botswana, Africa: implications for the origin of rodingites 375
- P. L. McSWIGGEN, G. B. MOREY and J. M. CLELAND: Occurrence and genetic implications of hyalophane in manganese-rich iron-formation, Cuyuna Iron Range, Minnesota, USA 387

Mineralogy

- G. M. FRIEDMAN and D. J. SCHULTZ: Precipitation of vaterite (CaCO₃) during oil field drilling 401
- J. C. GASPAR, A. J. G. CONCEIÇÃO E SILVA and D. P. DE ARAÚJO: Composition of priderite in phlogopites from the Catalão I carbonatite complex, Brazil 409
- A. C. ROBERTS, T. S. ERCIT, A. J. CRIDDLE, G. C. JONES, R. S. WILLIAMS, F. F. CURETON II and M. C. JENSEN: Mcalpineite, Cu₃TeO₆·H₂O, a new mineral from the McAlpine mine, Tuolumne County, California, and from the Centennial Eureka mine, Juab County, Utah 417
- K. KUMA, A. USUI, W. PAPLAWSKY, B. GEDULIN and G. ARRHENIUS: Crystal structures of synthetic 7 Å and 10 Å manganates substituted by mono- and divalent cations 425
- R. S. W. BRAITHWAITE and G. RYBACK: Reichenbachite from Cornwall and Portugal 449
- A. PRING and T. B. WILLIAMS: A HRTEM study of defects in silver-doped galena 455
- J. PARR: The preservation of pre-metamorphic colloform banding in pyrite from the Broken Hill-type Pinnacles deposit, New South Wales, Australia 461
- G. SIMON, D. H. M. ALDERTON and T. BLESER: Arsenian nagyagite from Sacarimb, Romania: a possible new mineral species 473

Short Communications

- C. J. STANLEY, A. C. ROBERTS, and D. C. HARRIS: New data for nagyagite 479
- N. J. COOK: Post-recrystallisation phenomena in metamorphosed stratabound sulphide ores: a comment 482
- A. J. HALL, P. McCONVILLE, A. J. BOYCE and A. E. FALICK: Sulphides with high δ³⁴S from the Late Precambrian Bonahaven Dolomite, Argyll, Scotland 486
- G. R. WATT, J. W. HARRIS, B. HARTE and S. R. BOYD: A high-chromium corundum (ruby) inclusion in diamond from the São Luiz alluvial mine, Brazil 490
- J. M. HUGHES and N. YUNXIANG: A high-precision crystal structure refinement of daqingshanite-(Ce) from the Nkombwa Hill carbonatite, Zambia 493
- D. M. KAMPATA, P. H. NIXON, J. SALEMINK and D. DEMAIFFE: Monticellite in the Gwena kimberlite (Shaba, Zaïre): evidence of late-magmatic crystallization 496
- A. V. PHADKE and A. APTE: Thermal behaviour of cavansite from Wagholi, India 501
- D. W. POWELL, R. G. THOMAS, P. A. WILLIAMS, W. D. BIRCH, and I. R. PLIMER: Choloalite: synthesis and revised chemical formula 505
- A. R. LANG: Comments on 'An unusual octahedral diamond' by A. Yacoot and M. Moore 508

Mineralogical Note

- N. J. ELTON, J. J. HOOPER and A. E. JEAL: Nováčekite and metanováčekite from Cornwall 513

Awards

- 1993 Mineralogical Society-Schlumberger Award 515
- 1993 Max Hey Medal 518
