Image analysis

	<i>page</i>
N. J. FORTEY: Image analysis in mineralogy and petrology	177
L. AILLERES, M. CHAMPENOIS, J. MACAUDIERE and J. M. BERTRAND: Use of image analysis in the measurement of finite strain by the normalized Fry method: geological implications for the 'Zone Houillère' (Briançonnais zone, French Alps)	179
A. R. H. SWAN and J. A. GARRATT: Image analysis of petrographic textures and fabrics using semivariance	189
N. PETFORD and J. A. MILLER: Some aspects of the application of image analysis to the study of fission tracks	197
D. N. BRYON, M. P. ATHERTON and R. H. HUNTER: The interpretation of granitic textures from serial thin sectioning, image analysis and three-dimensional reconstruction	203
M. R. COOPER and R. H. HUNTER: Precision serial lapping, imaging and three-dimensional reconstruction of minus-cement and post-cementation intergranular pore-systems in the Penrith Sandstone of north-western England	213
P. J. POTTS, A. G. TINDE and D. STANFORD: A new procedure for relocating mineral grains for microprobe analysis	221

Geochemistry

F. MELCHER: Genesis of chemical sediments in Birimian greenstone belts: evidence from gondites and related manganese-bearing rocks from northern Ghana	229
H. KUCHA, W. PROHASKA and E. F. STUMPFEL: Deposition and transport of gold by thiosulphates, Veitsch, Austria	253
D. FLINN and A. PENTECOST: Travertine-cemented screees on the serpentinite seacliffs of Unst and Fetlar, Shetland	259
N. W. A. ODLING: A fusion method for preparing glass samples of peridotitic and picritic rock compositions for bulk analysis	267
J. A. STMAC, A. H. CLARK, Y. CHEN and S. GARCIA: Enclaves and their bearing on the origin of the Cornubian batholith, southwest England	273

Mineralogy

P. C. BURNS and F. C. HAWTHORNE: Hydrogen bonding in borcarite, an unusual borate-carbonate mineral	297
A. C. ROBERTS, J. A. R. STIRLING, G. J. C. CARPENTER, A. J. CRIDDLE, G. C. JONES, T. C. BIRKETT and W. D. BIRCH: Shannonite, Pb_2OCo_3 , a new mineral from the Grand Reef mine, Graham County, Arizona, USA	305
D. B. CLARKE: Cordierite in felsic igneous rocks: a synthesis	311
C. J. CARSON, M. HAND and P. H. G. M. DIRKS: Stable coexistence of grandidierite and kornerupine during medium pressure granulite facies metamorphism	327
S. MERLINO, M. PASERO, N. PERCIAZZI and A. GIANFAGNA: X-ray and electron diffraction study of penfieldite: average structure and multiple cells	341

Short Communications

A. YU BARKOV, Y. A. PAKHOMOVSKII and Y. P. MEN'SHIKOV: Baddeleyite: new occurrences from two mafic-ultramafic layered intrusions, Russia	349
G. M. FRIEDMAN and D. J. SCHULTZ: Precipitation of vaterite ($CaCO_3$) during oilfield drilling	353
J. A. MANDARINO: New minerals recently approved by the Commission on New Minerals and Mineral Names, International Mineralogical Association	355
