THE CRYSTAL STRUCTURES OF COSTIBITE (CoSbS) AND PARACOSTIBITE (CoSbS)
Vol. 13, pp. 188-196 (1975). Figure 3, p. 193, was printed upside-down. The correct orientation is given below.

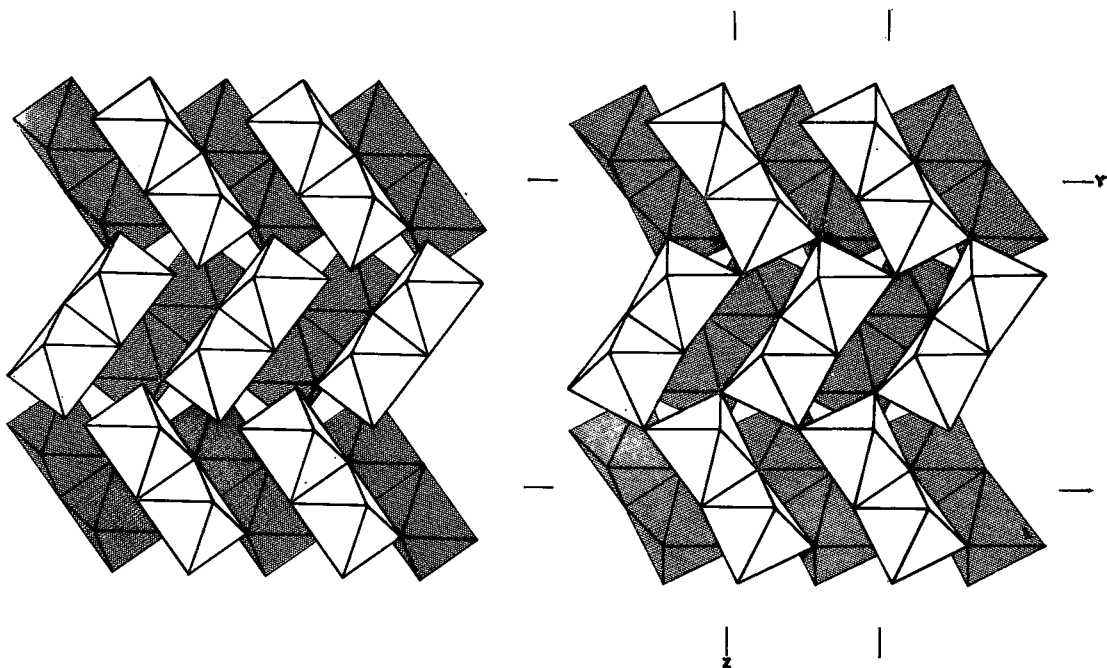

FIG. 3. The relationship of the costibite and paracostibite structures in terms of the Co octahedra. Left side shows a structural model constructed from alternate segments of costibite oriented with the (101) and $(\bar{1}01)$ planes parallel. Right side shows the paracostibite structure.
