

APPENDIX: ERRATUM

Interested readers should note that on page 730 of Mason (1997), Figure 6 was inadvertently repeated as Figure 7. The caption to Figure 7 was printed correctly. The correct figure is reproduced below.

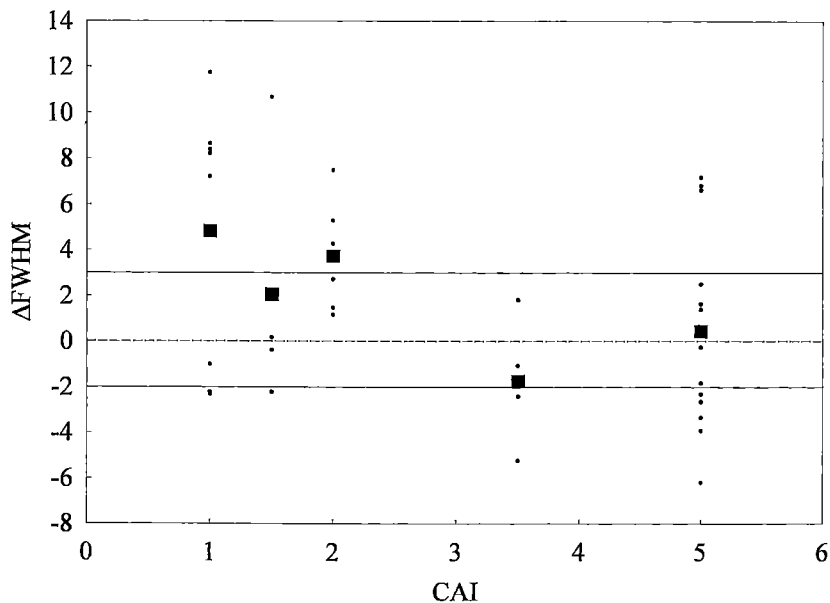

FIG. 7. Change in emission bandwidth ($\Delta FWHM$) induced by heating plotted against CAI. Mean values for each CAI group are shown as large filled symbols. The lines at -2 and $+3$ nm enclose the data from synthetic calcite (Mason 1994; unpubl. data).
