

Proceedings of the Russian Mineralogical Society*

RUSSIAN ACADEMY OF SCIENCES

Volume 129

Number 5

2000

Solid hydrocarbons with native metals from the Glasberget pegmatite, Sweden	N.P. YUSHKIN, V.V. GPORDIENKO, O.V. KOVALEVA & P.L. LYCKBERG	1
Structural classification of natural and synthetic cuprates	V.V. MALTSEV, L.V. SHVANSKAYA, E.V. SOKOLOVA, L.I. LEONYUK & G.-J. BABONAS	13
Evolution of alkaline magmatism in the formation of dunite (olivinite) – pyroxenite ring-shaped intrusions	A.A. MARAKUSHEV & M.V. SEREDKIN	19
Regional mineralogy (ore deposits of Yakutia)		
Küstelite: does this mineral really exist?	V.P. SIMUSIKOV & L.A. PAVLOVA	28
Trends in evolution in compositions of Fe–Pt alloy from platinum-bearing placers in the eastern part of the Siberian platform	A.V. OKRUGIN	31
Phosphides and phosphorus sulfides from the Onello meteorite	A.G. KOPYLOVA & B.V. OLEINIKOV	37
Ni–Co–arsenides and sulfarsenides from gold – rare-metal deposits of eastern Yakutia	G.N. GAMYANIN & L.I. LYKCHINA	43
Gold – telluride – selenide mineralization in the Kuranakh gold ore deposit (central Aldan)	A.A. KIM	51
Find of Ta–Nb-bearing rutile in the Omchikandinskiy massif in northeastern Verkhoyanye	S.P. ROEV	57
Rare metals from the oxidation zone of tin – silver – base metals deposits of eastern Yakutia	YU.YA. ZHDANOV	60
Typomorphic features of ore minerals from the Deputatsky ore district	A.I. Kholmogorov, YA.V. YAKOVLEV, L.I. SOLOVYEV & YU.YA. ZHDANOV	64
Nature of achtarandite and trigon-tritetrahedral skeletal-zonal crystals of garnet from achtarandite-bearing rocks at the Vilyui River	A.D. PAVLUSHIN	69
Experimental mineralogy		
Etching of diamond in silicate melt at atmospheric pressure	V.M. SONIN, A.V. NABERUKHINA, E.N. FEDEROVA & A.I. TURKIN	76
Hexagonal compounds with the beryl structure: relations between optical anomalies and crystal anatomy	T.V. DEMINA & M.A. MIKHAILOV	81
Bending autodeformation of gypsum crystals during their growth by counterdiffusion	YU.O. PUNIN & O.I. ARTAMONOVA	90
Investigation techniques for minerals, rocks and ores		
Light figures from crystal growth faces and their use in ontogenic investigations	A.I. GLAZOV, E.B. TREIVUS & V.V. MIKHAILOV	95
Computer technology in the microstructural analysis of plagioclase	S.S. SHAKIN & A.F. BYSTROV	103
Discussions, criticisms, bibliography		
On the 170 th anniversary of the term “hornblende”	S.N. NIKANDROV, YU.S. KOBYASHEV, V.G. KRIVOVICHEV & P.M. VALIZER	111
Chronicles		
Annual scientific session of the Moscow division of the Russian Mineralogical Society RAN: “Actual problems of Mineralogy”	V.V. MATIAS & V.I. KUZ’MIN	115
The E.S. Fedorov workshop of 2000	S.N. SAMUSINA	118
