Proceedings of the Mineralogical Society for 1964	1
J. R. CANN: Gyrolite and reyerite from 'S Airde Beinn, northern Mull	5
A. A. HODGSON, A. G. FREEMAN, and H. F. W. TAYLOR: The thermal decomposition of crocidolite from Koegas, South Africa	31
J. H. PATTERSON: The thermal disintegration of crocidolite in air and in vacuum	38
T. ISAACS: A study of uvarovite	46
SUBRATA GHOSE: A scheme of cation distribution in the amphiboles	55
J. J. FAWCETT: Alteration products of olivine and pyroxene in basalt lavas from the Isle of Mull	69
A. HORRELL CLARK: Rhombohedral molybdenite from the Minas da Panasqueira, Beira Baixa, Portugal	72
R. J. DAVIS, M. H. HEY, and A. W. G. KINGSBURY: Xanthiosite and aerugite (Plate I)	84
E. SASS, Y. NATHAN, and A. NISSENBAUM: Mineralogy of certain pyrite concretions from Israel and their alteration products	88
J. ESSON, R. H. STEVENS, and E. A. VINCENT: Aspects of the geochemistry of arsenic and antimony, exemplified by the Skaergaard intrusion	108
J. G. D. STEYN: The identification, mode of occurrence, and quantitative determination of crystalline phases in granulated blast-furnace slag (Plates II-VI)	118
N. K. RAO and G. V. U. RAO: Intergrowths in ilmenite of the beach sands of Kerala	131
D. R. DASGUPTA: Oriented transformation of manganite during heat treatment	140
R. L. OLIVER and J. B. JONES: A chlorite-corundum rock from Mount Painter, South Australia	146
D. L. SALTER and IAN M. WEST: Calciostrontianite in the basal Purbeck beds of Durlston Head, Dorset	151
W. W. SMITH AITKEN: An occurrence of phlogopite and its transformation to vermiculite by weathering (Plate VII)	165
S. G. FLEET and P. H. RIBBE: An electron-microscope study of peristerite plagioclases	177
W. F. BUSH and W. O. WILLIAMSON: Enhanced production of magnesium silicates from strained magnesia	189
G. W. BRINDLEY and RYOZO HAYAMI: Mechanism of formation of forsterite and enstatite from serpentine	196
J. H. FANG and R. E. NEWNHAM: The crystal structure of sinhalite	200
IAN NICHOL and ROY PHILLIPS: Measurements of spectral reflectivity of manganese oxides	214
BARTOLOMEO BALDANZA: Italian meteorites	233
M. ATHERTON and E. HARRISON: A note on feed and asymmetric devices for mineral separation	234
A. HALL: The occurrence of prehnite in appinitic rocks from Donegal, Ireland	236
F. A. SHAMS: Hydromagnesite from Hindubagh, Zhob Valley, West Pakistan	237
Book Reviews	237
